# MEETING INSIGHTS

CONTINUOUS ENTERPRISE PRODUCTIVITY POWERED BY VOICE.AI

Easily retain & share company meetings

Captures multiple sources from in-room and remote participants

Voice.AI keyword & content searchability

Next-generation Voice.AI Speech-to-Text (STT) capabilities

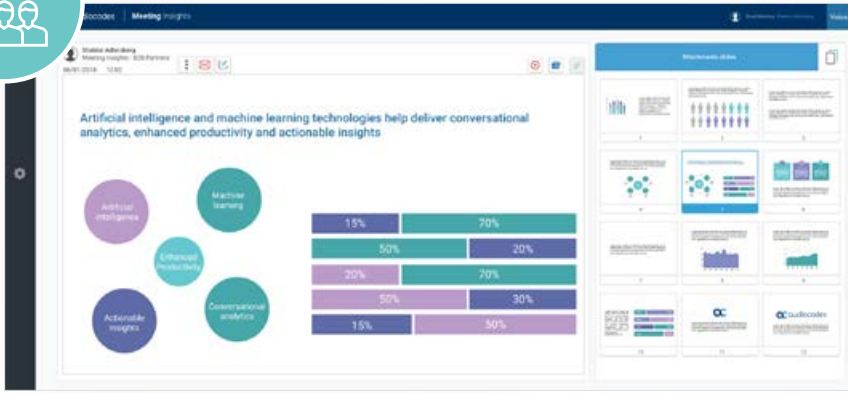

Team collaboration, training, sales and HR use-cases

Meetings are an important strategic asset that provide a space for crucial data to be shared, for opinions to be discussed and for great ideas to be raised. As unique as the meeting space is, it is also temporary. The human ability to capture all context, side notes and action items while also paying attention to the meeting itself is very limited and therefore most information is lost once a meeting is over.

**AudioCodes Meeting Insights** is an enterprise solution designed specifically for the meeting-technology world. By leveraging AudioCodes vast voice expertise and state-of-the-art Voice.AI technology, Meeting Insights easily captures and organizes all meeting-generated content.
