VOICE CONNECTIVITY SIMPLIFIED

A SINGLE SOURCE FOR END-TO-END ZOOM VOICE ENABLEMENT

AudioCodes One Voice Live for Zoom is a unified offering of voice connectivity and productivity solutions that deliver simplicity and enhanced functionality for Zoom Phone deployments.

AudioCodes as a Service

AudioCodes has packaged four simple Zoom offers in a price-per-seat-model accelerating Zoom customers can enjoy the complete AudioCodes product suite - a one-stop-shop for Zoom connectivity services and solutions. AudioCodes One Voice Live takes advantage of Zoom's BYOC to quickly implement carrier grade voice connectivity while supplying global distribution of desktop and conference room phones, along with analog capabilities.

How Do We Deliver? By leveraging a SaaS model, AudioCodes delivers voice design in a first time right approach for service quality and speed, rather than the traditional sizing or costing complications of legacy order taking models.

ONE Source

AudioCodes SBCs that enable connectivity with bring-your-own-carrier (BYOC) services, coexistence with legacy PBXs and analog capabilities.

ONE Experience

AudioCodes desk and conference phones that deliver intuitive user experience and excellent audio quality to every conversation.

ONE Solution

Network and services management solutions that empower IT professionals with the tools needed to operate their services efficiently.

ONE Process

Call recording and analytics solutions that enhance business processes and productivity. AudioCodes enables the delivery of comprehensive Zoom Phone solutions easily and effectively with per-user-per-month pricing, by leveraging AudioCodes' global partner network and professional services.
